WHICH LUBE TO CHOOSE?

SSC carries a wide variety of industrial lubricants to help quiet doors, inhibit rust and dissolve grease and grime, offering long-lasting protection.

SSC Part #	Name	Lube Type	Ounces/Per Can	California Compliant	Private Label Available	Food Grade	Temp Range (F)	Purpose
SSC123	3-Way Nozzle Spray Lube	PTFE	13	✓	NO	NO	N/A	All purpose lubricant with a 3-way adjustable nozzle that allows control of flow from mist to stream. Prevents rust and corrosion build up while not attracting dust or dirt over time.
SSCAYD	SSCAYD Gel Lube	PTFE	13	✓	NO	NO	N/A	A transparent high pressure, water resistant lubricant that penetrates tight areas and sets up into a grease-like gel with high adhesive strength. Fortified with PTFE, it dries clear and is virtually invisible once applied.
434	Multi-Purpose Spray Lube	White Lithium	14	NO	✓	NO	-60 / 350	Designed to reduce metal to metal friction on any surface under heavy loads. Formulated with rust corrosion inhibitors and waterproofs the treated surface.
560129	Multi-Purpose Spray Lube	White Lithium	14	✓	✓	NO	-60 / 350	Designed to reduce metal to metal friction on any surface under heavy loads. Formulated with rust corrosion inhibitors and waterproofs the treated surface.
449	Ultra Gel Spray Lube	PTFE	13	✓	✓	NO	-30 / 600	A high adhesive strength lubricant that withstands extreme pressure. Easily dispensed spray penetrates tight areas by initially going on thin and immediately forming a viscous film.
492845	Z-45 Spray Lube	Oil	15	NO	✓	NO	-55 / 475	Penetrating lubricant that contains PTFE for added lubricity during extreme temperatures. Defends against corrosion and dissolves grease and grime.
464	Silicone Spray Lube	Silicone	9.75	✓	NO	NO	-58 / 600	Non-drying formula lubricates, protects and lengthens life of all rubber parts. Thick viscous film adheres to most surfaces like a magnet.

LUBE COMPARISON SHEET

SSC Part #	Name	Lube Type	Ounces/Per Can	California Compliant	Private Label Available	Food Grade	Temp Range (F)	Purpose
GS11A	Getsome Spray Lube	Oil	11	✓	NO	✓	0 / 360	Long lasting, non toxic, no odor, non staining, non conductive, non halogenic, non carcinogenic, LOW VOC, NO CFCs, and safe on plastics, metals, enamels, etc. Professional and commercial grade. Food Grade H-1NSF certified.
SLIPIT	Slip-It Spray Lube	Silicone	11	✓	NO	✓	220	Ideal for use in hard to reach spots and inhibits rust and corrosion. Dielectric properties for use in electrical applications.
463	Foamy Spray Lube	Oil	15.75	✓	NO	NO	N/A	Foaming action provides extended penetration and moisture displacement. The foam minimizes run off and keeps the product working on rusted parts.
PROSL	PRO SL Spray Grease	Synthetic	9	✓	NO	NO	-65 / 300	Synthetic penetrating lubricant with excellent rust-inhibitive properties. When applied correctly, it can provide years of corrosion protection in fresh water environments.
436	PRO 21 Spray Grease	Synthetic	9	✓	NO	NO	-80 / 400	Formulated with a superior base stock and advanced additives which will lubricate and protect machinery, parts, and surfaces against friction, oxidation, corrosion, and other types of distress.
135063	Chain & Cable Fluid	Oil	11	✓	NO	NO	-40 / 350	Lubricating, penetrating, and cleansing fluid designed to penetrate strands and reduce friction between wire rope, while protecting inner core from rust and corrosion.
